

Red Seal Preparation Course

The Red Seal Preparation Course breaks down into two parts. The first part is the actual theory instruction that is 92 hours. The second part is the practical portion which is a combination of shop practice time and the actual TSSA 4G plate testing (if necessary). We recommend doing the practical first so when you are finished the theory you can book the challenge right away while theory is still fresh in your mind. The TSSA ticket is good for one year.

Next Scheduled Session January 19, 2012 start time

Practical (held at weld shop in Stratford)/ Theory Training (held in London on Saturdays from 8:00 am to 3:00 pm based on enrolment)

Theory Training**\$1000.00 per person** (min 10 participants)
Theory Books fixed charge**\$160.00 each**
Additional Blueprint Reading book or ILM's (optional)..... \$105.00 each

Practical Training**\$40.00 / hr per person**
(after 10 hours rate will drop to \$25/hr)
